

I travel 64 miles to work Monday - Friday and I listen to K-Love on 105.5 FM. K-Love is the only radio station I listen too. K-Love has gotten me through some very painful crises in my life, it's encouraging and uplifting. I firmly believe that if K-Love were to be displaced by an LPFM broadcaster, only junk would be available to hear and don't we have enough of junk on the air and TV. I plead that you will not take something that is uplifting,encouaging, that projects love and intergrity to an angry generation. I been a K-Love supporter for approximately 10 years and I can't imagine not being able to listen to K-Love. I know alot of people that listen to K-Love. Thank you for your time. God Bless!
